

Media Air Cleaners

ACM Series™

Clean Air. Smart Value.

Wholehouse Media Air Cleaners are a smart, easy and affordable way to filter the air throughout the home. Unlike standard air filters that collect only relatively large particles and are only 2-5% efficient, White-Rodgers Media Air Cleaners go a big step further. The Media Air Cleaner Cabinet mounts on the return-air side of the furnace and re-circulates the air at up to 55% efficiency. This advanced filtration system removes household dust, animal dander and other dirt from the air.

Home Comfort Systems
